

Statement

To whom it may concern:

In the name of the Editors of the volume entitled '*Kurgan Studies: An environmental archaeological multiproxy study of burial mounds of the Eurasian steppe zone*' we declare that Tünde Horváth has submitted the following manuscript for publication: '*Hajdúnánás–Tedej–Lyukas-halom – An interdisciplinary survey of a typical kurgan from the Great Hungarian Plain region: a case study (The revision of the kurgans from the territory of Hungary)*'.

The manuscript has been accepted for publication after peer-reviewing and will be published in the British Archaeological Reports Series, based on the agreement with Archaeopress.

The editing work of the volume is currently done and will be finished by mid August. Based on the modified publication schedule the final version of the volume will be out at the end of August or middle of September.

The current status of the above cited article is: accepted for publication.
